MEMORANDUM FOR: Deputy Director for Support

Bob:

With increasing frequency when I arrive at my office in the morning, it is obvious that someone has used it during the night. Recently I have found cigarette butts in the ashtrays and the toilet, ashes on the floor, and last Friday morning a chewing gum wrapper by my desk.

I can only assume that this is the work of either a guard or the char force. In any case, I think the appropriate action is obvious and request that it be taken.
